EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Russell R. Kassner on 31 August 2004.

The application has been amended as follows:

Claim 6, line 5, the term - - interrupted - - have been inserted after "the pin having" in line 5.

Claim 7 has been canceled.

Claim 11, line 5, after "distal tip" the phrase - -, the distal tip of the pin having interrupted threads formed in an outer surface thereof, - - .

Claim 14, line 5, after "distal tip" the phrase - -, the distal tip of the pin having interrupted threads formed in an outer surface thereof, - - .

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The art of record closest to the claims fail to teach or suggest a non-expandable sleeve member having a bore there through and a pin having a distal tip and a proximally extending shaft member. The distal tip having interrupted threads on the outer surface thereof. The prior art suggests a combination of sleeves with pins, however, none of the references suggests forming a pin with interrupted threads on the outer surface.

Art Unit: 3731

For these reasons, the claims are allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
